ABSTRACT

Results of a 1985-1986 salary survey of 515 administrative faculty in baccalaureate and graduate nursing programs are presented. A total of 383 American Association of Colleges of Nursing member schools were surveyed; 177 returned a completed questionnaire. All salary tables supply figures on both an academic and calendar year basis. When there are sufficient numbers of administrative faculty in a group, data are presented for the 10th, 25th, 50th, 75th, and 90th percentile salaries. The number of individuals in each group is also shown with the percentile statistics. Using the percentile format, salaries are presented for eight administrative faculty titles. In addition to data for all schools, salary tables are presented by region, institutional control, and size of faculty. Separate tables show the titles and salaries of continuing education faculty. Matrix tables present data on administrative faculty by degree level and academic rank for the four titles of associate dean, assistant dean, chairman, and director. Data are provided for the number of individuals in each category, and for salaries at the mean and 25th, 50th, and 75th percentile. Appendices include questionnaires and a list of participating schools by region. (SW)

ADMINISTRATIVE FACULTY SALARIES

This is the fourth and final report on the 1985-86 Salary Survey conducted by the Institutional Data System (IDS) of the American Association of Colleges of Nursing. The average salaries reported here represent the administrative faculty of baccalaureate and graduate programs in AACN member schools. Of the 383 schools surveyed in fall 1985, 177 schools or 46.2 percent returned a completed questionnaire; calculation of the salaries herein represents a total of 515 administrative faculty of collegiate programs. It should be noted that two factors influenced the response rate: 1) completion of the questionnaire on administrative faculty was voluntary and 2) many smaller schools do not have positions allotted for administrative functions. Calculation of average salaries also excludes interim administrators (N=14) serving as temporary replacements.

Overview

Section 1 outlines the methods used in the survey as well as explanations of the terminology used in the questionnaires. Presentation of the survey results appears in Section 2. Tables 1a through 16a report data for salaries based on the academic year; Tables 1b through 16b present the data for calendar year basis.

The 1985-86 IDS Survey series consists of four reports: Faculty Salaries, Deans' Salaries, Administrative Faculty Salaries, and Enrollments and Graduations. Each of the four reports can be used independently of the others. Information regarding the series as a whole is presented in Appendix I, Background to the IDS Survey. The remaining appendices provide sample questionnaires (II), a list of participating schools (III), and a map of the membership regions (IV).

IDS provides each member school with a computer printout showing its ranking with peer group schools on selected variables as an additional service. Begun in 1980, this standard printout includes a count of baccalaureate and master's graduates for the preceding year with percentage increase or decrease, full-time faculty and percentage with doctorates, assistant professor salaries, and percentage salary gain for all faculty in the school. Schools may also request customized printouts of data they choose to examine in greater detail. At all times, however, the confidentiality of member schools is guaranteed.

Section 1. Survey Methods

The survey consists of four components: faculty salaries, deans' salaries, administrative faculty salaries, and institutional data. The institutional data not only provide information on enrollments and graduations, but also provide the information for classifying schools into categories of region, type and size of programs, type of institution, and source of financial support. These are the categories that structure the tables presented in Section 2.

Survey Techniques

The first mailing of survey forms went out to member schools in mid-August 1985. By the end of September, approximately 45 percent of the returns were in and reminder letters were sent to over 200 schools. Follow-up phone calls were made throughout October and November until data collection was terminated on November 26.

The editing and coding of the survey questionnaires overlapped data collection. Additional phone calls were made to respondent schools to verify survey items and to correct omissions in the returned questionnaires.

Following initial analysis of the data which identified salary and enrollment changes from the previous year, a third series of phone calls was made to verify major changes. Analysis was concluded by mid-January and the first report in the 1985-86 series, on faculty salaries, was completed. The overall response rate for the survey was 96 percent (N=369).

Data Processing

As part of processing the data, all salary figures were converted to either an academic or calendar year basis. The preparation of tables involved the conversion of salary from each individual, whether on an academic or calendar year basis, to an equivalent amount on the other basis. Therefore, each set of tables represents the entire sample of respondents. To do this, salary data based on the calendar year were multiplied by nine-elevenths (9/11) converting them to academic year data, and salary data based on an academic year were multiplied by eleven-ninths (11/9) converting them to calendar year data.

Where there is a sufficient number of faculty in a group, data are presented for the 10th, 25th, 50th, 75th, and 90th percentile salaries. These percentile salaries are those below which 10, 25, 50, 75 and 90 percent of salaries fall, respectively. By this definition, the 50th percentile is the median salary. Percentile salaries have been rounded to the nearest hundred.

The number of individuals in each group is also shown with the percentile statistics. Where the number is small, it is not meaningful to calculate all of the percentile values. Therefore, the 10th and 90th percentiles have not been calculated where the number is less than eleven, the 25th and 75th percentiles have not been calculated where the number is less than five, and the 50th percentile has not been reported when the number is less than three.

Terminology

As can be seen in Appendix II, all four survey forms provide instructions for their completion. In general, the more common terms are defined by common usage in the academic community. To ensure uniformity however, some terms were defined specifically:

- school represents the nursing unit in higher education institutions that offer baccalaureate, master's, or doctoral programs in nursing;
- dean refers to the chief administrative officer of the nursing unit, whether the local title is dean, director, chairman, head, or another term;
- salary basis is determined by the number of months for receiving salary; the academic year is 9 or 10 months and the calendar year is 11 or 12 months.
- administrative faculty are those nurse faculty who allocate at least 50 percent of their time to administrative functions; it does not include non-nurses in administrative positions.

Seven administrative titles were identified as relevant to positions in nursing education. These are: associate/assistant dean, chair, director, head, coordinator, and assistant to the dean. In schools where the chief executive officer is titled dean, administrative personnel were generally titled assistant dean, director or chairman. Other schools have the title of director to denote the chief executive officer, while administrative personnel are termed assistant directors. For the purpose of salary comparison, these administrative positions of assistant dean, director, and assistant director are comparable. The category "other" refers to personnel with titles such as clinical chief, RN advisor, educational planner, and clinical nurse facilitator.

Section 3. Presentation of Tables

The following tables are presented in two groups. Group One uses a percentile format and presents salaries for eight administrative faculty titles. In addition to data for all schools (Tables 1a and 1b), salary tables are presented by region, institutional control, and size of faculty. Tables 12a and 12b display salary data for administrative faculty responsible for continuing education.

The tables in Group Two use the matrix format and present data on administrative faculty by degree level and academic rank for the four titles of associate dean, assistant dean, chairman, and director. Data are provided for number of individuals in each category, and for salaries at the mean and 25th, 50th, and 75th percentiles.

Appendix I

Background to the IDS Survey

Appendix I

Background to the IDS Survey

What was tentatively titled a Data Bank was officially launched by AACN late in 1978. The purpose of the project was to develop a database to support policy research and decision making for the organization. Early on, priority was placed on the development and refinement of the salary survey. Since 1979 the report series has consisted of three components: salaries of full-time nursing faculty, salaries of nursing deans, and salaries of faculty in administrative positions. The third report, on salaries of administrative faculty, was routine until 1984 when it was placed on an alternating year schedule. This third report is available in the 1985-86 series.

In 1982, requests from AACN members led to the production of a report on enrollments and graduations that would accompany the salary reports. The following year, concern over a possible shift in enrollment resulted in an analysis of institutional data for four years in order to identify trends. This four-year analysis plan has been continued as the standard format.

A brief summary of the content of the four reports in the 1985-86 series is presented:

Salaries of Nursing Faculty. The report on faculty salaries summarizes the data in a section called Facts in Brief, followed by an explanation of the survey methods and a discussion of the data. Each table shows four faculty ranks; doctoral preparation; and three types of institutional status: public, private/ secular, and private/religious. Tables presenting the mean and median salaries are calculated by academic and calendar year. Data are presented by region and by status as a university, four-year college, and/or academic health center. One set of tables is formatted by school size, and a separate table is produced for doctoral programs. Sample questionnaires and a list of participants are included.

Salaries of Nursing Deans. The report on nursing deans and their mean salaries is presented on both academic and calendar year bases. Comparisons of average salaries are made by institutional control and type, academic health centers, deans continuing in office, type of program, faculty size, type of doctorate, title, rank, tenure, length of term, and years of experience. Sample questionnaires and participating schools are given.

Salaries of Administrative Faculty. This report, last published in 1984, summarizes data received on faculty members other than deans who have administrative functions in the school. Salaries are reported by academic and calendar year bases and region, as well as by institutional control, size of faculty, and title of position. Sample questionnaires and a list of participating member schools are included.

Enrollments and Graduations. This report compares data from the most recent four years' surveys on enrollment and graduations. Student categories are generic, RN, master's, and doctoral. Respondent schools are also compared by region, institutional type, and full- or part-time status of students. Participating members and sample questionnaires are included.

1985–86 AACN SURVEY
INSTITUTIONAL DATA

Name of School _____

Address of School _____

1. Your institution is: (please check one)
   Public _____ Private (secular) _____ Private (religious) _____
2. Your school of nursing is part of an academic health center: (See definition on reverse. Please check one.)
   yes, same campus _____ yes, separate campus _____ yes, separate city _____ no _____
3. Your school of nursing is part of: (please check one)
   A university _____ A four-year college _____
   Other _____ (Specify) _____
4. The salary basis for nursing faculty is: (please check one)
   Academic year _____ Calendar year _____ Mixed _____ (See instructions on reverse)
5. Number of nursing faculty: Full-time [ ][ ][ ] Part-time [ ][ ][ ] (See instructions on reverse)
6. Categories of students:
   baccalaureate
   generic _____
   RN _____
   masters _____
   doctoral _____
   assoc. degree _____ If you have an associate degree program, see instructions on reverse.
7. Availability of **special programs** for college graduates from other fields who are not registered nurses. (Check whatever applies.)
   _____ Leading to a baccalaureate in nursing
   _____ Leading to a master's in nursing.
   _____ No such programs are available. (See instructions on reverse.)

Questions 8 and 9 relate to generic programs only

8. In your school, when does a generic student become a nursing student? (Please check one. Do not include prenursing students.) Freshman year _____ Sophomore year _____ Junior year _____
9. When is the **first course** taught by **nursing faculty**?
   Non-clinical: Freshman year _____ Sophomore year _____ Junior year _____
   Clinical: Freshman year _____ Sophomore year _____ Junior year _____
10. Enrollment and graduation data:
    Please leave no blanks. Fill unneeded blocks on the left with zeros.

Count only nursing students in the spaces below.

		Fall 1985 Full-time Students	Fall 1985 Part-time Students	1984-85 Graduations During 1984-85 Academic Year

	R.N.	[ ][ ][ ][ ]	[ ][ ][ ][ ]	[ ][ ][ ][ ]
Graduate:	Masters	[ ][ ][ ][ ]	[ ][ ][ ][ ]	[ ][ ][ ][ ]
	Doctoral	[ ][ ][ ][ ]	[ ][ ][ ][ ]	[ ][ ][ ][ ]

Signature of Dean or Director _____

Please add complete phone number here _____

III

INSTRUCTIONS FOR INSTITUTIONAL DATA

2. Academic Health Center: As defined by the Association of Academic Health Centers (AAHC), an academic health center is "an institution that includes a school of medicine, a teaching hospital, and at least one additional health educational program" - in our case nursing. Each health school generally maintains separate identity and autonomy.

4. Salary Basis: If some faculty are paid on an academic year basis while others are paid for the calendar year, e.g., assistant deans, please check "mixed." It will not be necessary for you to do conversions as AACN's system does this automatically. An academic year begins with the opening of the fall term and ends with Commencement. A calendar year salary implies an 11 month commitment with a month of paid vacation.

5. Faculty: Full-time: Include all nurses with regular faculty appointments in your school even though their salaries may be paid from a number of funds.

   Part-time: Include all nurses who hold a faculty appointment and receive some compensation from the school of nursing but are not considered full-time faculty. Do not include adjunct faculty unless they receive some compensation as above. Please give the number of individuals - not FTE.

6. Associate Degree Programs: This survey is intended to collect data on programs at the level of the baccalaureate degree and higher degrees. If you also have an associate degree program, please do not include the associate degree students when answering the enrollment questions. Do not include faculty who teach only in the associate degree program. Faculty who teach in both programs should be counted as part-time in question 5.

7. This question applies only to schools which offer a modified and/or accelerated program for this type of student. Such students should be included in enrollment and graduations in question 10.

10. Full-time or Part-time Students: Please use your own institution's definition of these for both baccalaureate and graduate students.

INSTRUCTIONS ON REVERSE SIDE

GENERAL INSTRUCTIONS FOR FACULTY SALARY SURVEY

1. DESIGN OF FORM: This form, consisting of two sections, is provided as a convenience to the school while completing the questionnaire. The names section on the left should be separated and discarded before returning the right section to AACN; AACN has no wish to know the names of faculty in association with salaries. All that the respondent will need to complete the form is a list of full-time nurse faculty with degree, rank, salary basis and salary. Do not include full-time non-nurse faculty members who are carried on your budget.

2. PURPOSE: This form is for the collection of salaries and related data on all full-time nursing faculty except the dean. Salaries for acting deans should be included. See separate questionnaire for the Dean/Director.

3. DEGREE LEVEL: Circle only one number for each faculty member.

4. FACULTY RANK: Circle only one number for each faculty member. Individuals not having a faculty appointment should not be included on the report at all. If a school uses non-standard faculty ranks internally, please assign individuals to the nearest (of the four standard ranks) on this form if there is a reasonably close equivalent. Use "Other" only for those faculty (e.g., lecturer, research associate, assistant instructor) who have faculty status but do not fit one of the four standard ranks, e.g., an assistant instructor does not receive the same salary as an instructor. In the case of "Others", please add a check or asterisk after the line number on the far right of the sheet. Then identify their actual titles by line number at the bottom of the page.

5. SALARY BASIS: Circle only one number for each faculty member. Use academic year for faculty paid on a 9 month or 10 month basis; use calendar year for faculty paid on an 11 month or 12 month basis.

6. SALARY: Enter exact salary to nearest whole dollar. Use current fiscal year compensation figures (fall of 1985). When a full-time nursing faculty member's salary is derived partly from another school or administrative unit within the total institution, please combine all compensation and report only one total. The salary reported should reflect the total amount before any deductions are made (for tax sheltered annuities, contributions to retirement funds, life or health insurance, etc.).

7. PAGES: Each sheet is designed for listing 25 faculty. Please number additional pages consecutively.

1985–86 AACN ADMINISTRATIVE SALARY SURVEY

Completion of the Administrative Salary Survey is optional. If it is completed, it should include all full-time nursing faculty with major administrative responsibility. Do not include administrators who hold no academic rank. Whether it is completed or not, nursing faculty with administrative responsibility should be included on the Faculty Salary Survey forms.

List below the administrative titles (not the names) of faculty who carry major administrative responsibility.	DEGREE LEVEL (Circle only one number)		FACULTY RANK (Circle only one number)					SALARY BASIS (Circle only one number)		SALARY	Line Number
	Doctoral	Non-doctoral	Professor	Associate Professor	Assistant Professor	Instructor	Other	Academic Year	Calendar Year		
	1	2	1	2	3	4	5	1	2	___ ___,___ ___ ___	01
	1	2	1	2	3	4	5	1	2	___ ___,___ ___ ___	02
	1	2	1	2	3	4	5	1	2	___ ___,___ ___ ___	03
	1	2	1	2	3	4	5	1	2	___ ___,___ ___ ___	04
	1	2	1	2	3	4	5	1	2	___ ___,___ ___ ___	05
